General Statement - The primary duty of the Regional Water Board is to protect the quality of the waters within the region for all beneficial uses. This duty is implemented by formulating and adopting water quality plans for specific ground or surface water basins, and by prescribing and enforcing requirements on all domestic and industrial waste discharges. Responsibilities and procedures of the Regional Water Quality Control Board come from the state's Porter-Cologne Water Quality Act and the nation's Clean Water Act.

Written Comments, Oral Comments and Presentations - The purpose of the meeting is for the Regional Water Board to obtain testimony and information from concerned and affected parties and make decisions after considering the recommendations made by the Executive Officer. The Regional Water Board and staff welcome information on pertinent problems, but comments at the meeting should be brief and directed to specifics of the case to enable the Regional Water Board to take the appropriate action.

Materials for each agenda item that will be considered by the Regional Water Board are posted on the Regional Water Board's website and may be provided to each person on the interested parties list. If you wish to be added to our interested parties list for a specific agenda item, please contact the staff person listed with the item in this agenda notice.

Written comments and materials must be submitted by the deadlines set by item-specific Notices and/or Hearing Procedures. Written comments and materials for information items must be submitted at least three days before the Board meeting. Written comments and materials that are received after identified deadlines will not generally be admitted. Any person requesting to submit late materials must demonstrate good cause, and the Chair must find that the admission of the late materials would not prejudice the North Coast Regional Water Board or any designated party. Pursuant to title 23, California Code of Regulations, section 648.4, the Regional Water Board may refuse to admit written testimony or evidence into the administrative record if it is not submitted to the Regional Water Board in a timely manner, unless the proponent can demonstrate why he or she was unable to submit the material on time or that compliance with the deadline would create an unreasonable hardship.

Any person who appears before the Board has an obligation to represent their interest in a professional manner. We expect all statements made before this Board to be truthful, with no attempts to mislead this Board by false statements, deceptive presentation, or failure to include essential information.

In order to give everyone an opportunity to be heard, a time limit for oral comments may be imposed on any agenda item. Interested persons are encouraged to submit their comments in writing by the applicable due date and use time for oral comments to summarize those concerns. **Speakers should plan to deliver their oral comments within 3 minutes. If a longer period of time is desired, speakers will be expected to notify the Executive Officer three days prior to the meeting date, for approval by the Chair and for scheduling purposes.** The speaker will be expected to have submitted a written summary of the comments to be delivered by the due date for the associated agenda item and limit oral comments to a summary of pertinent points previously presented in writing.

Speakers are responsible for providing and operating projectors and other presentation aids. Some equipment may be available at the Board meeting; however, the type of equipment available will vary depending on the meeting location. **To ascertain the availability of presentation equipment please contact Patti Corsie at (707) 576-2307 or Patti.Corsie@waterboards.ca.gov at least 5 working days prior to the meeting.**
